GRADE 11 / Life Orientation / English

Make an informed study-path decision

01 Understand

Learning goals: Connect interests with possible study paths • Compare entry requirements responsibly • Build an evidence-based next-step plan

A career decision combines interests, strengths, values, subject choices and practical constraints. One test or mark should not define your whole future.

Entry requirements differ by institution, programme and year. Check official sources for subject requirements, selection rules and deadlines.

Meeting minimum requirements does not guarantee admission. Keep alternative pathways and investigate funding, accommodation and support.

A comparison sheet to complete using official sources

Check	Option A	Option B
Required subjects	record official details	record official details
Selection and deadline	save source and date	save source and date
Cost and support	tuition, travel, funding	tuition, travel, funding

02 Follow the reasoning

A learner enjoys science but has not checked programme requirements. What should they do before applying?

1. List two suitable programmes and identify each institution’s official admissions page.

2. Record required subjects, marks, selection steps and the current application deadline with the date checked.

3. Compare affordability and support, prepare documents and keep a realistic alternative pathway.

GRADE 11 / Life Orientation

Practise with purpose

03 Try before checking

Use paper or your notebook. Show your reasoning. For written responses, use evidence and explain your choices. Suggested time: 15–20 minutes.

1. Why are social-media posts insufficient as the only admissions source?

2. Distinguish eligibility from acceptance.

3. Name two costs besides tuition to investigate.

04 Check and correct

1. Posts may be outdated, incomplete or unofficial; verify using the institution.

2. Eligibility meets stated entry conditions; acceptance is the institution’s actual offer after selection.

3. For example accommodation, transport, data, books or meals.

Common mistake to avoid

Do not publish or reuse an old deadline as current. Always verify the programme and year directly.

Reflect and revisit

Identify one correction in your own words. Attempt a similar question tomorrow without looking at the guide. If you are still unsure, take your attempt to a teacher or tutor.

Coverage and sources

CAPS topic focus: Careers and career choices: requirements and opportunities

DBE CAPS, Grades 10–12: Life Orientation. Section 3 content and skills. This is a focused supplement, not a complete syllabus or prescribed literature replacement.
