GRADE 10 / Tourism / English

Understand the tourism system

01 Understand

Learning goals: Distinguish domestic and international travel • Connect tourism sectors • Build an inclusive visitor experience

A domestic tourist travels within their country of residence outside their usual environment. International tourism crosses a national border.

Tourism relies on connected sectors such as transport, accommodation, attractions, food services and travel distribution.

Good planning considers accessibility, safety, realistic travel time and visitors' needs. Do not assume all tourists have the same budget or physical access requirements.

A domestic weekend trip

Stage	Sector	Visitor need
Bus to destination	transport	accessible boarding
Guesthouse stay	accommodation	confirmed booking
Museum visit	attraction	opening hours
Local café meal	food service	dietary information

02 Follow the reasoning

A family living in Gauteng visits a museum in the Western Cape and stays two nights. Classify the trip and identify three sectors.

1. The trip is domestic because residence and destination are within South Africa.

2. Transport gets the family there; accommodation provides the overnight stay; the museum is an attraction.

3. Check opening times and travel distance before promising an itinerary; actual prices and schedules must be verified.

GRADE 10 / Tourism

Practise with purpose

03 Try before checking

Use paper or your notebook. Show your reasoning. For written responses, use evidence and explain your choices. Suggested time: 15–20 minutes.

1. A resident of Botswana visits South Africa. Is this domestic tourism for South Africa?

2. Name a tourism service supplied by a travel agent.

3. Give one way a local tourism business can support its community.

04 Check and correct

1. No; it is inbound international tourism for South Africa.
2. For example, arranging transport and accommodation bookings.
3. Employ locally, source suitable goods locally or partner fairly with community guides.

Common mistake to avoid

Nationality and country of residence are different. Tourism classifications use the stated travel context.

Reflect and revisit

Identify one correction in your own words. Attempt a similar question tomorrow without looking at the guide. If you are still unsure, take your attempt to a teacher or tutor.
