Service, Media and AI Privacy Addendum

SmartBridge FET | TECH AND GUARD (Pty) Ltd
Version 1.1-draft | Prepared 14 October 2026

DRAFT FOR OWNER AND SOUTH AFRICAN LEGAL REVIEW. This document is not yet an activated contract. Operator: TECH AND GUARD (Pty) Ltd, CIPC registration 2026/155090/07. Registered office: 6 Marais Road, Stellenbosch, Western Cape, 7600, South Africa. Support: aneleq@techandguard.co.za. SmartBridge FET is the platform brand; no registered trademark status is claimed.

Purpose and minimisation

The platform processes account, booking, progress, consent and security records to provide and protect the service. Public tutor profile media is intentionally visible and should contain only professional information the tutor is authorised to publish. Learner records and completed legal forms must not be published in study rooms or public media buckets.

Providers and AI

Hosting, database and delivery providers process information needed for their functions. The proposed AI provider is OpenAI; the company must confirm the actual API project, processing terms, retention and safeguards before activation. Do not send children's identifiers, guardian forms, health or financial details to AI prompts. A reduced-storage API option is not a guarantee that no provider logging occurs. Explain international processing and lawful safeguards where applicable.

Rights and support

Use the existing Privacy Notice alongside this draft addendum. Requests for access, correction, deletion or consent changes go through a verified support process. Keep only records necessary for the service, security, lawful transaction evidence and applicable retention duties; subscription payment does not justify indefinite data retention. The operator must confirm its responsible privacy contact, security-incident process and retention schedule before publishing this addendum. No claim of certified POPIA compliance is made.
